BIENNIAL REPORT

OF THE

TREASURER OF ILLINOIS.

TREASURER'S OFFICE, ILLINOIS,
Springfield, Dec. 9, 1850.

To the Honorable,
the Speaker of the Senate:

SIR: In obedience to the provisions of law, I have the honor to furnish the following report of the receipts and expenditures of the public money.

The annexed statements exhibit the total amount of receipts and disbursements on each account with which the treasurer is chargeable, from the first day of December, 1848, to the 30th day of November, 1850, both days inclusive; as also the amount in the treasury at the close of my last biennial report.

The total receipts for revenue purposes are \$418,663 65 and the total payments are \$390,085 24, leaving a balance in the treasury on the 30th Nov., of \$28,578 41. The receipts of the constitutional tax for the payment of the state debt are \$165,788 81, which is subject to the order of the executive from and after the 1st day of January, 1851.

The total receipts of interest fund are \$297,156 14, the total payments are \$263,034 50; leaving a balance in the treasury of \$34,121 64 to apply on the next semi-annual instalment.

The total receipts of Insane Hospital tax are \$40,553 88, and total payments \$40,321 80, leaving a balance of this fund in the treasury of \$232 08.

The total receipts for the Institute for the Blind are \$9,374 33, the total payments are \$8,000 00; leaving a balance of \$374 33.

A statement is also submitted showing the annual receipts, and the payments from the treasury of the interest and the Insane Hospital funds, respectively, from the dates of their collection to the 30th November, 1850. The aggregate receipts of both funds are \$645,575 41, and the aggregate payments from the treasury are \$611,221 69.

Of the \$16,484 38, revenue due from the treasurer on the 30th of November, 1848, the sum of \$2,270 57 was paid into the treasury by the administrator of Milton Carpenter, deceased, late treasurer, in auditor's warrants, leaving a balance in specie of \$14,213 81, to be disbursed under the provisions of "an act making partial appropriations," approved January 11, 1849. From this latter amount the sum of \$13,956 94 was paid, as follows:

To executive officers, including auditor's clerks and secretary			
to the fund commissioner	-	-	\$1,971 00
To the judiciary, including prosecuting attorneys,		-	3,000 00
To senators, representatives and legislative officers,		-	8,260 70
To the public printer,	-	-	200 00
For postage and freight	-	-	420 24
To laborers,	-	-	100 00

By the provisions of "an act concerning the public debt," approved Feb. 12, 1849, the school funds received from the general government are no longer paid into the state treasury to be used as revenue, but are very properly applied to their appropriate object, that of establishing a permanent fund for educational purposes. This fund being withdrawn from the treasury, leaves the entire expenses of the state government, as also that of all special appropriations made hereafter by the legislature, to be paid from the proceeds of the two mill tax, which is now assessed and collected for revenue purposes. The latter fund alone, however, is ample, after paying from its proceeds for stationery, fuel and other demands for the public use for the ensuing two years. For the first time since the formation of our state government, we have in the treasury a sum equal to, and which will be applied, for defraying the expenses of the present session of the general assembly.

If the revenue of 1850 shall be paid in with reasonable promptness, and the larger appropriations be distributed at intervals through each year, so that extensive demands against the treasury may not occur earlier than the months of June or July, it is believed that the treasurer will then be able to pay off all warrants when presented at the counter, and thereby prevent the losses that heretofore have occurred to the state and to individuals.

The increasing duties and pecuniary responsibilities of the treasury department, now require the assistance of a trustworthy and competent clerk. The necessity of providing by law for the payment of such a clerkship in the treasurer's office, is, with great deference, submitted to the wisdom of the legislature.

JOHN MOORE, *Treasurer.*

BIENNIAL REPORT
OF THE
AUDITOR OF PUBLIC ACCOUNTS,
OF THE
STATE OF ILLINOIS.

AUDITOR'S OFFICE, ILLINOIS,
Springfield, December 1, 1850.

To the General Assembly of the State of Illinois :

I have the honor to submit the following report of the receipts and disbursements, during the fiscal term ending November 30, 1850, with such other tables and statements as are deemed proper; which are presented in the following order :

1. A statement of the receipts and expenditures.
2. A general statement of warrants drawn upon the treasury.
3. A detailed statement of warrants drawn upon the contingent fund.
4. A detailed statement of warrants issued, showing on what appropriation, and to what account charged.
5. A statement of the school, college, and seminary fund, and amount of state indebtedness purchased.
6. A statement of the redemption money, received from minor heirs.
7. A statement of the treasurer's account.
8. A table showing the condition of the state internal improvement lands.
9. A table showing the condition of the public lands.
10. Appendix, containing a comparative statement of the assessments in the several counties for the years 1839 to 1849, inclusive; also the amount of interest on the school, college and seminary funds, paid for said years.

In making this report to the general assembly, it affords me pleasure to say that the finances of the state are in a more favorable condition than they have been for some years past. The insufficiency of the revenue to meet the liabilities for the ordinary expenses of the government, for some years, has subjected the state, as well as individual

creditors, to a heavy expense and actual loss, by the depreciation of warrants drawn upon the treasury. Articles furnished, postage bills, and work done for the state, had to be paid for in cash, or its equivalent, and the state, paying in warrants, had to pay an advance of from ten to thirty per cent. over the cash value of the articles furnished, or the labor hired. The treasury being now in a condition to meet all liabilities for ordinary expenses, it is to be hoped that it will continue so, and that such a state of affairs will not occur again; and that such a degree of economy in the public expenditures will be observed, as will not only enable the treasury promptly to meet the expenses of the state government, but, in a short time, justify a reduction of the taxes levied for that purpose.

The receipts of the treasury during the last two years, exceed the amount of expenditures during the same time \$76,053 00, and the outstanding warrants, and school certificates on the 1st day of December, 1848, (after deducting for error in the amount of certificates reported,) amounted to the sum of \$64,633 06, leaving a balance in the treasury, after paying the warrants and certificates then, and now, outstanding, of \$11,419,94. To that amount may be added the sum of \$20,000 due from collectors on accounts of 1849, and prior years, which, it is estimated, and expected, will be collected in a short time. A large amount of the balances remaining unpaid on the revenue and special state taxes, as shown by table annexed to this report, will, it is feared, be finally lost. The collection of a large portion of the balances due may, at least, be considered doubtful.

STATEMENT of Receipts and Expenditures from the 1st day of December, 1848, to the 30th day of November, 1850, both days inclusive.

RECEIPTS.

Taxes collected and paid over by collectors on real and personal property assessed in the year 1847, and prior years, for revenue purposes,	-	-	\$32,736 74
Taxes collected and paid over by collectors on real and personal property assessed in the year 1848, for revenue purposes,	-	-	189,288 33
Taxes collected and paid over by collectors on real and personal property assessed in the year 1849, for revenue purposes,	-	-	171,034 89
Taxes on forfeited property, collected and paid over by clerks of county courts, for revenue purposes,	-	-	1,043 57
Amount paid into treasury for hawkers' and pedlers' licenses,	-	-	1,687 50
Amount paid into the treasury for tax on insurances,	-	-	1,269 68
Amount paid into the treasury for fines imposed for peddling without license,	-	-	150 00
Amount paid into the treasury for rent and insurance of the Quincy House,	-	-	3,300 00

Amount paid into the treasury for seminary lands sold,	1,571, 06
Amount paid into the treasury on account of escheated lots in Lewistown, (after deducting \$2 50 paid for advertising sale, &c.,) - - - -	97 50
	<hr/> 402,179 27 <hr/>

EXPENDITURES.

Amount of warrants drawn upon the treasury for the ordinary expenses of the government, - -	137,196 16
Amount of warrants drawn upon the treasury for special appropriations and expenditures, - -	78,436 90
Amount of warrants drawn upon the treasury for the interest on the school, college and seminary fund, due Deaf and Dumb Asylum, - - -	4,618 98
Amount of interest paid on old warrants - -	176 15
Amount of certificates issued to school commissioners for interest on the school, college and seminary fund, due the several counties for the years 1848 and 1849, - - - - -	105,698 08
Total amount of expenditures, - - -	<hr/> 326,126 27 <hr/>
Revenue received into the treasury over the amount of disbursements, - - - - -	<hr/> 76,053 00 <hr/>

SPECIAL TAXES.

Amount of interest fund tax received into the treasury, as shown by the treasurer's receipts, from the 1st December, 1848, to the 30th November, 1850, in- clusive, - - - - -	296,326 89
Amount of interest fund tax paid out during the same time, - - - - -	263,034 50
Amount received over the amount paid out, - -	<hr/> 33,292 39 <hr/>
Amount of Insane Hospital tax received into the treasu- ry from the 1st of December, 1848, to the 30th of November, 1850, inclusive, as shown by treasurer's receipts, - - - - -	40,318 43
Amount of Insane Hospital tax paid out during the same time, \$43,840 19, from which deduct the sum of \$3,518 39, as per report of 1848, - - -	40,321 80
Amount paid out over the amount received, - -	<hr/> \$ 3 37 <hr/>

Amount of tax for the institution for the education of the blind, received into the treasury as is shown by the treasurer's receipts,	-	-	-	9,374 33
Amount paid out up to the 1st December, 1850,	-	-	-	8,000 00
Amount received over the amount paid out,	-	-	-	1,374 33

The amount of \$40,321,80 paid out on the Insane Hospital fund, as shown by the foregoing statement, includes the sum of \$537 80, for which a warrant was issued prior to the 1st day of December, 1848, and which had not been paid at that date.

The amount paid into the treasury for special taxes, as shown in the foregoing statement, corresponds with the amount set forth in the treasurer's receipts, but will vary a little upon a final adjustment of the accounts. Payments into the treasury are sometimes erroneously made by collectors, who frequently make payments before they have had their delinquent lists allowed; or, when they come to settle their accounts, it is found that the reports made to this office are incorrect, and sometimes, after accounts are adjusted, errors are discovered, and a portion of the amounts paid into the treasury have to be refunded. Such occurrences are, to some degree, unavoidable, and are the result of incorrect returns to this office. It is hoped, however, that in a short time the papers necessary to an adjustment of the unsettled accounts, will be received when a correct statement of the amounts received upon each fund will be made out.

It is estimated that of the balances due and now outstanding on the special state taxes, there will be collected in a short time the following amounts:

Of the state debt tax	-	-	-	\$28,000 00
Of the interest fund tax	-	-	-	20,000 00
Of the Insane Hospital fund,	-	-	-	12,000 00
Of the fund for the blind,	-	-	-	300 00

A GENERAL STATEMENT of the amount of warrants drawn upon the Treasurer, from the 1st day of December, 1848, to the 1st day of December, 1850, and charged to the following accounts :

The work required by the second section of an act entitled "an act to enable the auditor of public accounts to perform his duty," approved March 1st, 1847, and the twenty-third section of an act entitled "an act to amend the several acts concerning the public revenue," approved February 8, 1848, is nearly completed, and, it is expected, will be finished during the present month. Believing that the public interest required that the land records in the several counties should be corrected at as early a day as possible, the work has been pushed forward with all possible dispatch, and eighty counties have been furnished with complete records of all the lands subject to taxation in said counties. Thirteen other counties have applied for corrected land books, which it is expected will be completed by the first of January. The remaining six counties, to wit: Crawford, De Witt, Edgar, Fulton, Peoria, and Vermilion, have, I am informed, had their land records corrected; hence it will not be necessary to furnish them with land books from this office.

In making out the county land books, as well as the annual reports of lands for taxation, I find it to be impossible to determine the correct boundaries of some of the counties, from the plats and records on file in this office. The dividing line, in some cases, is nothing more than a small creek or branch, the meanderings of which have never been surveyed; hence the channel is not correctly traced upon the plats.

I have been at considerable expense and trouble in obtaining plats and other information from the surveyor general's office, and the several land offices, for the purpose of correcting, as far as possible, the defects in the maps and records in this office, but am satisfied that they are yet very imperfect, and that they cannot be correctly ascertained without an actual survey of the lands through which the line passes. Portions of several counties are bounded by lines running diagonally through sections, making it very difficult for assessors to determine in what county the lands should be taxed. In many cases, therefore, the lands are assessed in both counties, and frequently they are not assessed in either county; thereby, not only causing trouble to the owners of the property, but an actual loss to the public treasury. Much disorder would be avoided, in my opinion, if the lines dividing counties were made to conform to the surveys of the general government, except where the boundary line is a navigable river or lake. Wherever it might be necessary to run lines diagonally across sections, they could be run so as to zigzag with the lines of quarters of quarter sections, without materially affecting the direction of any line, and thereby forty acre tracts would always be left altogether, either on one side or the other of such lines, and no difficulty could arise in the assessment of such lands.

The records of lands purchased by individuals from the general government, subject to taxation, (except a portion of the old locations and claims, which will soon be corrected) are now in as complete order as they can well be made; and the system adopted in making out the new land books for this office, and for the counties, is so perfect that it will require but little care and attention to keep them in perfect order here-

after. However, as there are frequent changes of entries of lands, on account of errors, pre-emption claims, &c., it will be necessary that some provision be made to have this office advised of such changes, or corrections, that the tax lists may be corrected annually, and improper assessments avoided.

For the purpose of correcting the school land records, I have had them transcribed into tract books, and it is found that in many cases the same tract has been patented in error, to two or more persons. Lists of these errors have been furnished to the school commissioners of the proper counties, and, in some cases, the erroneous patents have been returned to this office, and corrected, but a large number of them are still outstanding. From applications made to this office for school land patents, it appears that patents which have been issued and forwarded to the commissioners, have either been lost in the mails, or mislaid at the office of the commissioner, and that the purchasers have not received patents for the lands thus patented. It may be necessary that some provision be made regulating the issuing of duplicate patents in such cases, and to enable this department to correct the errors above referred to.

I would respectfully suggest the expediency of more restrictive legislation to secure the public revenue. The large amount lost annually by defalcation of collectors, seems to require some more effectual mode of securing the revenue than now exists. It is an easy matter for securities on collectors' bonds, in many cases, if they are so disposed, to sell their property before judgments can be obtained on the bonds, and thereby evade their payment; and, if I have been correctly informed, the courts in some cases approve bonds with insufficient securities. If the bonds required from collectors were made liens upon their real estate, and upon the real estate of their securities, until their accounts were fully settled, and the responsibility of the securities determined by the value of their real estate, it would, in my opinion, secure more effectually the public revenue, and cause collectors to be more prompt and energetic in the discharge of their duties.

There may be a small amount collected from clerks of county courts, as some of the accounts, for the redemption of forfeited property, have not yet been adjusted. In some counties the law regulating the assessment and collection of the revenue on forfeited property has not been complied with, but in a large number of the counties the clerks, and other officers, promptly discharged the duties required, and have succeeded in clearing the old lists of the back taxes, and placing the property on the regular tax lists.

In consequence of the many errors in land lists reported for taxation, and the want of proper care and attention in assessing, a large portion of the lands heretofore forfeited to the state, had been assessed and sold in error, and the sales had to be cancelled. In many counties the legality of the assessments was so doubtful that the lands were sold for mere nominal amounts, not sufficient to pay the costs of sale, and in some cases bidders could not be found at any price. In cases where the lands were re-offered for sale and could not be sold, the old sales have been cancelled, and the lands placed upon the tax lists for taxation.

That the officers in those counties where forfeited lands are situated, and remain undisposed of, may be enabled to dispose of them, it is suggested that the time for assessing and collecting the tax on such lands be extended to the time for assessing and collecting the revenue for the year 1851.

The law authorizing and requiring the auditor to purchase real estate offered for sale under judgments in favor of the state, makes no provision for the disposal thereof, and as there has been real estate purchased in compliance with said law, I would suggest the propriety of making some provision for disposing of the lands which have been, or may hereafter be, purchased in compliance with that law.

The frequent changes in the revenue laws have made it very difficult for officers to understand the duties required of them, and in some counties it is probable that there has not been sufficient care and attention paid to the laws regulating the assessment and collection of the revenue. I am gratified to find, however, that there has been more interest manifested, and more care taken to systemize the business under the revenue laws during the last two years than there has been heretofore, and have reason to believe that the time is not distant when the business will be reduced to such a system and so regulated as to produce a much more equal and just assessment, with less labor and trouble.

As the state derives almost its entire revenue from the assessment and collection of taxes, and must depend upon taxation, to some extent, for the payment of her public debt, too much care and attention cannot be bestowed upon this branch of the public business. The state has been at considerable expense in having the land records corrected, and in furnishing the several counties with complete lists of the taxable lands situated in them, and now, as the work is about completed, and all the counties will soon be in possession of full and complete lists of the taxable lands, there can be but little doubt that, with proper care and attention, the revenue will be greatly increased.— That the revenue laws may be more easily reached and a knowledge of the duties of officers more readily obtained, it is suggested that the several acts now in force be revised, with such alterations as may be necessary, and that a sufficient number of copies be placed under the control of the auditor, to enable him to furnish the county officers with them, from time to time, as may be found necessary. At present they are spread over the statute books so as to require considerable research to examine them.

Some better and more perfect system of assessing and valuing property seems to be required. It may be that a change in the law, so that lands be assessed once in two or four years, would operate better than annual assessments, as now required. It is believed that more care would be taken in ascertaining the full value of the lands under such a system, than under the present one, and much labor and expense would be saved. The personal and town property can be assessed with less than half the labor and expense required to assess the lands, and should be assessed annually, together with the annual lists of lands not previously reported for taxation. It is suggested, there-

fore, in order to establish a more perfect system, and secure more full and perfect assessments, that the assessors be furnished with blanks, properly printed, setting forth the various kinds of taxable property, with columns for designating the amount and value thereof, so that the tax payer or assessor can fill them out conveniently, and when filled out let its correctness be attested by the owner or person listing the property, for which purpose a blank certificate could be attached.—Such a plan, it seems to me, would prevent errors and omissions in listing property, and secure more full and fair assessments than are secured under the system now in operation.

The law providing for the sale of state lands seems to me to be defective. It authorizes the auditor to sell the lands, receive the pay, and deliver to the purchaser a certificate of purchase, without the knowledge of any other officer. And believing as I do, that the business of the several departments should be so arranged that the records of one office will serve as a check upon another, I suggest that the law above referred to be amended.

The law regulating the mode of making payments into the treasury, was repealed in revising the laws in 1845, and in my opinion should be re-enacted.

From the returns made to this office, it appears that the law providing for township and county organization, has been adopted in the counties of Adams, Brown, Boone, Bureau, Cook, Carroll, Du Page, De Kalb, Fulton, Grundy, Hancock, Jersey, Knox, Kane, Kendall, La Salle, Lee, Lake, Marshall, McHenry, Ogle, Peoria, Pike, Putnam, Schuyler, Stephenson, Tazewell, Will, Warren and Winnebago. The returns of the election show that in the counties of Jasper, Putnam, Schuyler and Warren, only a minority of the votes cast were for township organization; therefore it may require legislative action to enable those counties to re-organize, or to legalize their acts under the present organization. There is no provision in the township organization law requiring county treasurers now in office, and who were elected under the old law, to execute bonds as collectors, and I am informed that all the towns, in some of the counties adopting the township organization law, have not organized, and in some cases the property in those towns has not been assessed. I respectfully suggest that provision be made for the assessment of the property in such towns, and that the county treasurers be required to execute bond.—There are, doubtless, many other defects in the law which might be pointed out, but as very few returns from those counties have been received, and as I am not fully advised of the operation of the law, I only make the foregoing suggestions, which seem to require early attention. As it is a difficult matter to arrange two systems of revenue, operative at the same time in one state, such alterations of the law, other than those necessary to meet the contingencies referred to, will doubtless be made by the wisdom of the general assembly, without being suggested by this department.

Respectfully submitted,

THOS. H. CAMPBELL, *Auditor P. A.*

APPENDIX.

COMPARATIVE STATEMENT of the revenue for the years 1839 to 1849, inclusive, showing the assessed value of real estate and personal property—the amount of revenue and special tax charged—amount of abatements, commissions, &c., deducted, and the net amount collected, including tax on sales to the state; also the amount of interest on the school, college and seminary fund paid the several counties for said years.

County.	Year.	Real estate.	Personal property.	Total value property.	Revenue and special state tax.	Abatements, commissions, &c.	Net amount of state tax.	Balance due, exclusive of interest or cost.	Interest on school, &c. fund.

The net amount of state tax, above stated, includes the tax on sales to the state.

The balances as shown in the foregoing table, will, in many cases, be reduced, and some of the accounts will, doubtless, be found to be fully paid when the proper vouchers of abatements are furnished by the collectors.

The balances due from the collectors of Champaign and Warren counties, as set forth, appear to have been omitted in settling the accounts, and will, no doubt, if found correct, be promptly paid by the collectors for the years for which they appear to be due.

In Gallatin county, the notes, &c., of the Bank of Shawneetown, were assessed in 1846, for 1845 and 1846, and they were also assessed in 1847. For the amount of taxes charged on said assessment, the collector claims credit, he not having been able to collect them, as appears from the report of his settlement with the county court. Being of the opinion that the county court had not the power to allow him credit therefor, I have not made the allowance on the books of my office, and would suggest that the collector be released by law from the payment of the amount of said taxes; or that some provision be made, which will enable him to collect them.

Prior to the year 1846, the value of real estate and personal property, with a very few exceptions, was not reported separately to this office from the counties, and even the aggregate value of the real and personal property assessed, was not reported, prior to that time, from many of the counties. In those cases, the value, as set forth in the foregoing table, has been estimated from the amount of taxes charged to the collectors.

The amount of interest on the school fund paid Tazewell county, for 1848, and Will county, for 1844, includes amount due for back years.
